

# VALVES CASTINGS AND ENGINEERING SERVICES

Overs years of development, ICAST has successfully designed and developed wide category of industrial valves

## VALVES DEVELOPED

**TYPE OF VALVES:** BALL VALVE SINGLE PIECE

**VARIANTS :** SCREWED END AND SOCKET WELDED

**SIZES:** 15MM TO 100MM

**TYPE OF VALVES:** BALL VALVE TWO PIECE

**VARIANTS:** HAND OPERATED/ISO PAD MOUNTED/FIRE SAFE

**SIZES:** 15MM TO 100MM

**TYPE OF VALVES:** BALL VALVE THREE PIECE

**VARIANTS :** HAND OPERATED/ISO PAD MOUNTED/FIRE SAFE

**SIZES:** 15MM TO 100MM

**TYPE OF VALVES:** GATE VALVES

**VARIANTS:** HAND OPERATED

**SIZES:** 25MM TO 150MM

**TYPE OF VALVES:** GLOBE VALVES

**VARIANTS :** HAND OPERATED

**SIZES:** 15MM TO 150MM

**TYPE OF VALVES:** SWING CHECK VALVES

**SIZES:** 25MM TO 150MM

**TYPE OF VALVES:** Y STRAINER THREADED

**SIZES:** 15MM TO 50MM

**TYPE OF VALVES:** Y STRAINER FLANGED

**SIZES:** 25MM TO 100MM

## **SERVICE OFFERINGS**

- ◆ **Access wide ranges of investment casted valves**
- ◆ **Custom branding**
- ◆ **Access to wide variety of designs**
- ◆ **Customer can buy readymade castings and or fully functional valve**

## **ADVANTAGES**

- ◆ **Nominal development cost**
- ◆ **Fast development and approvals**
- ◆ **Price compentancy**
- ◆ **Custom material grade of castings**
- ◆ **No tool maintenance charges**

# FREQUENTLY ASKED QUESTIONS

## **ARE THERE ANY ADDITIONAL COST FOR ENROLLMENT INTO VCES?**

NO. Icast simply charges nominal cost based on product range in which we are required to embed custom logo and or brand name in die tools.

## **HOW DOES THIS WORK ?**

Based on customers requirements and willingness to enroll in this service, NDA and MOU are signed. After this we send General Arrangement drawings, which further can be approved at customer end. Thereafter Icast can provide with samples as per mutual agreement.

## **DO MOU QUANTITATIVE REQUIREMENT NEEDS TO BE FULFILLED ?**

No, figures simply are for our estimation for production scheduling and capacity allotment.

## **WHAT IF CUSTOMER IS BUYING CASTINGS AND NEED CORRECTION IN DIE TOOL ?**

Major changes would not be possible. But fine tuning adjustment like adding machining allowance can be done without any additional charges.

## **WHAT IF CUSTOMER REQUIRES PROPRIETARY DIE TOOL FOR RANGES OF PRODUCTS?**

Sure, depending on requirement ICAST would design and develop same of custom price.
